

Architecture Decision Records

Load-bearing decisions for the Real Estate CxO Decision-Support Agent. See `../architecture_v2_prudent.md` for the full design.

ADR	Title	Status
0001	LLM orchestrates and narrates; never calculates	Accepted
0002	Reconcile conflicting source values; never flat-average	Accepted
0003	Modular monolith on Java 25 + PostgreSQL/pgvector	Accepted
0004	LangChain4j native tools; defer MCP and Google ADK	Accepted

Convention: ADRs are immutable once Accepted. To change a decision, add a new ADR that supersedes it.
